---

## **Projects**

### **Developer Portfolio Website – [kennethplumstead.github.io](https://kennethplumstead.github.io)**

A terminal-style responsive portfolio website built from scratch using HTML, CSS, and JavaScript. Includes a command-line interface design, tech-themed visuals, and project showcases.

### **Mr. Robot Fan Site – WordPress.com**

A thematic fan hub styled in fsociety aesthetic, featuring cast bios, a custom fan-edited trailer, media gallery, and story breakdowns. Built using a simplified WordPress theme with customized typography and branding.

### **StudyBuddy App Mockup – Adobe XD**

A 4-page iOS app design project for academic tracking. Includes logo animations, sticky mobile nav, clean UI, and animation transitions.
